

Unlock New 5G and IoT Revenue Streams with Cisco Mobility Services

Cisco Knowledge Network Webinar

February 13, 2024

Simplifying 5G Complexity: Cisco Mobility Services Platform

A turnkey platform to rapidly monetize innovative 5G services

Today's speakers

ıılıılı cısco ıılıılıı cısco

James Brannan

Director, Provider Mobility Product Management and Technical Marketing

Darin Kaufman Director, Provider Mobility Product Management ıılıılıı cısco

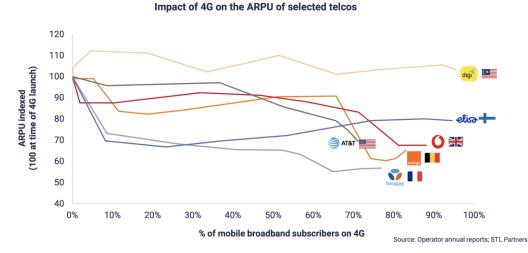

Kailash Kothari

Director, Product Management, Provider Mobility

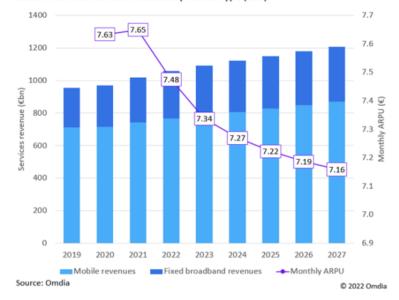

Agenda

- State of the 5G Market
- Introducing Cisco's Mobility Services Platform
- Key Offers and Use Cases
- Getting Started

5G impact to Consumer ARPU

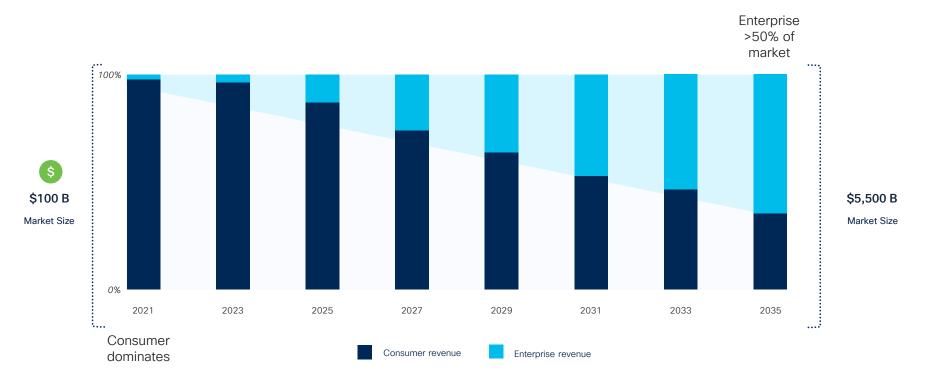

Telecoms services revenue forecast by service type (€bn)

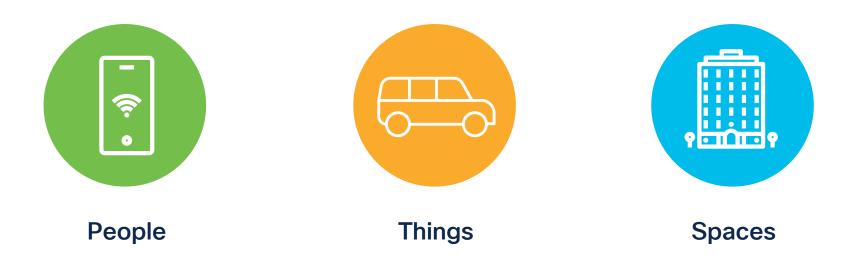

The Enterprise Mobile Services Opportunity

Enterprise & industry will drive SP growth over the next decade

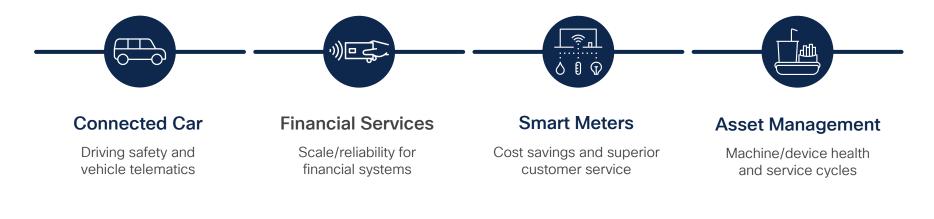

The Enterprise Mobile Services Opportunity

SPs will be well served by taking a holistic view across the key end customers

The opportunity with Thing (IoT)

Mobile IoT services driving growth across a range of industries and use cases

Worldwide, IoT connections will increase 220% from 2.2 billion in 2021 to 7.0 billion in 2031*

SPs are facing many challenges with Enterprise Mobility

Downward ARPU/MRR pressure

There's a need to monetize value-added services

Slow Time to Value

Multiple technology integrations

High cost to serve

Results in lower profitability

Risk High up-front financial risk

Complexity

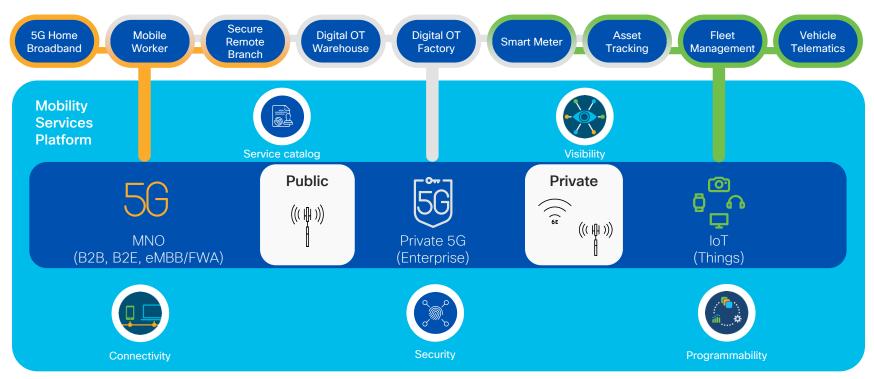

Operational and transactional complexity

Poor customer experience

Service reliability, customer credits

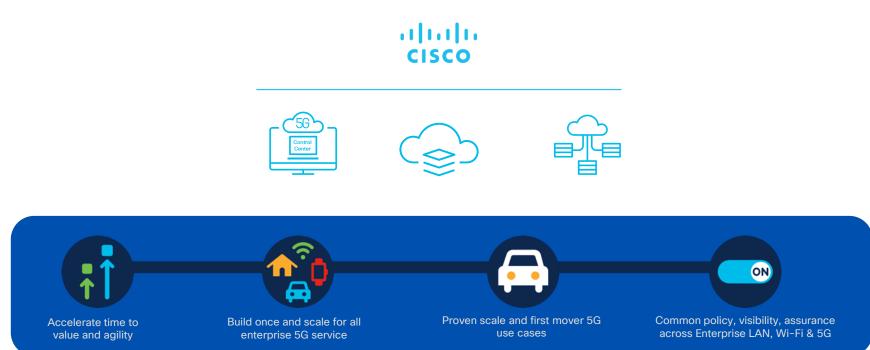

Introducing Cisco Mobility Services Platform

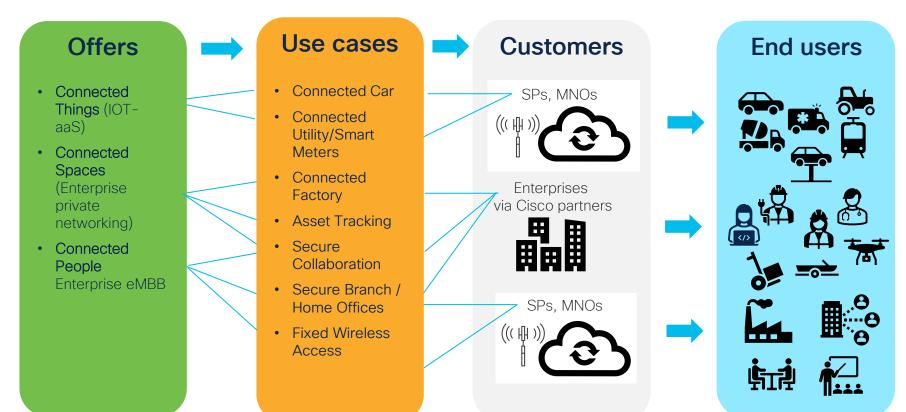

Public & private hybrid infrastructure deployment models

Our Value Proposition

One platform for all enterprise services

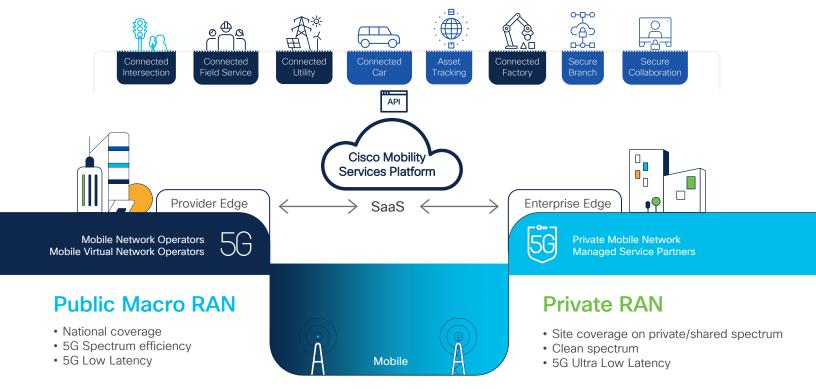

Cisco Mobility Services Platform Offer Catalog

Mobile services powered by a platform

Digital platform for all mobile services

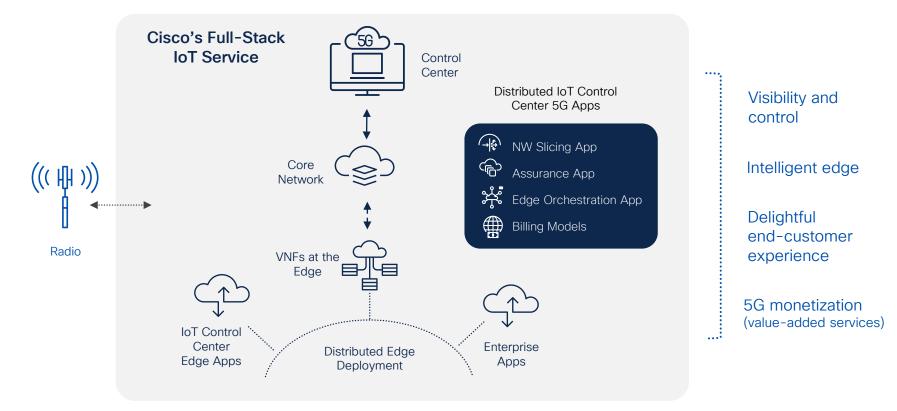

Connected Things

IoT Control Center Business Snapshot

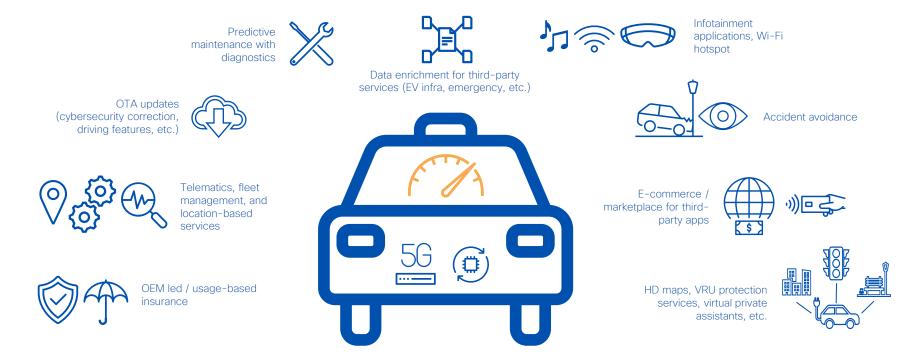

90M includes Consumer, Insurance, IIoT, Asset tracking, Retail, and other use cases.

Cisco's full-stack service with IoT Control Center

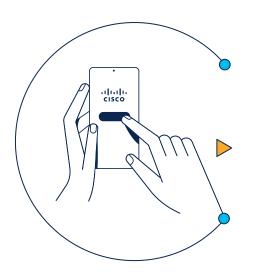

Enabling new immersive experiences with 5G

Connected Spaces

Private 5G solution

Identity and policy

Intuitively integrated into existing enterprise systems

Mobility core

Industry-leading 4G/5G converged mobility core

(((↓))) Radios

Certified and validated Open RAN radio partners

The Cisco differentiator for Private 5G

Integrated enterprise architecture

- 5G becomes part of access architecture with Wi-Fi
- Consistent operations and management
- Intent-based policies across both Wi-Fi, 5G, and other access technologies (e.g., LoRA)
- Synergies with existing Enterprise network systems (e.g., Catalyst, ISE, etc.)

స్టిస్టి As-a-Service delivery

- Full-stack solution, tested and ready to integrate
- Operations and lifecycle management maintained by Cisco and its partners
- No need to worry about infrastructure management, operations, configuration

Cisco IoT Control Center powers millions of SIM-based services

Built on proven

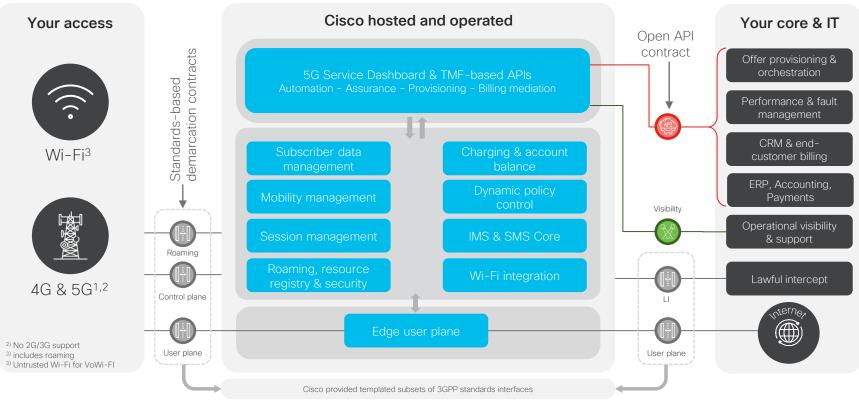

technology

Zero-touch provisioning

- Industry-leading network security (#1 in Industrial Security and Industrial IoT)
- The only vendor capable of offering one network that supports enterprise campus through edge and beyond

Connected People

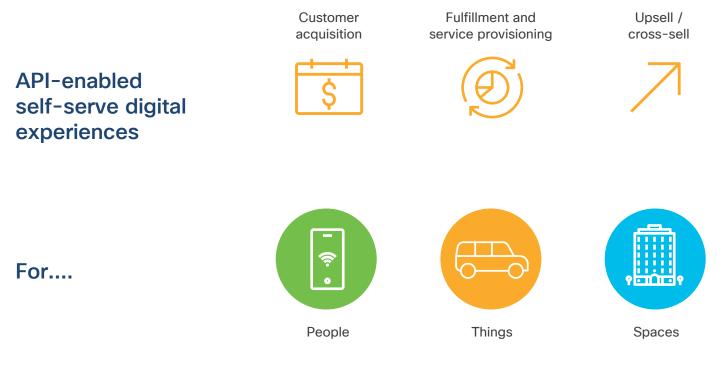

Enterprise eMBB / FWA solution (Roadmap)

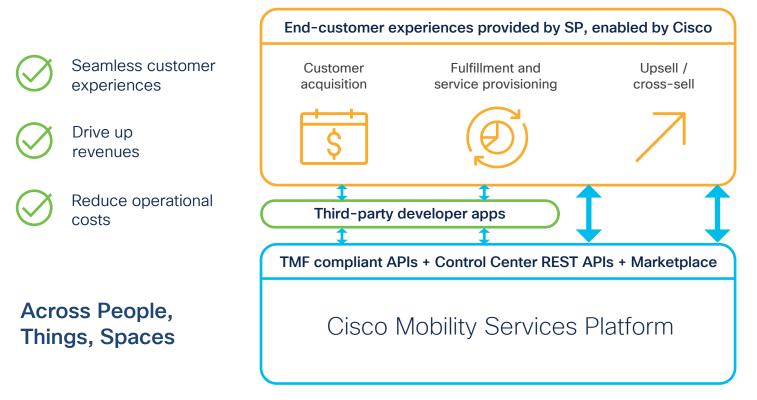

¹⁾ Charging, account balance and rating

API ecosystem enabled Digital Experiences

Digital experiences for all Enterprise Mobility Services

Enablement via MSP APIs, marketplace, developer apps

The Cisco difference

We are the Mobility market leader

Our global experience, reach, and track record are second to none. We connect more devices and connected cars for more enterprise customers than any other platform on the planet.*

We understand your business better

Our scale and reach gives us a deep insight into markets and your needs. From the complexity of connected cars to the massive scale of smart meters, Cisco has helped 32,000+ businesses across industries expand their cellular IoT.

We are constantly innovating

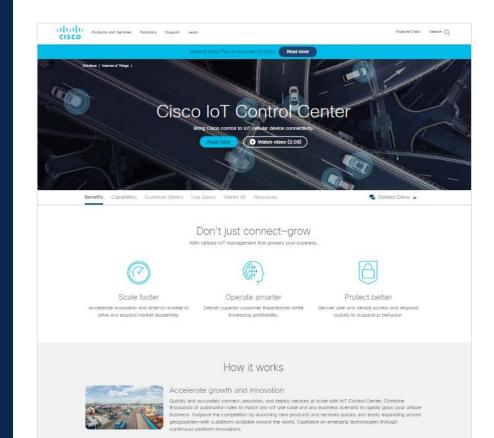

At Cisco, we are solving tomorrow's challenges today to give you the competitive edge to focus on what matters most– growing your business.

*Over 240M connected devices including 100M connected cars for over 32,000 enterprises.
